Hello students? How are you feeling today? I hope you're getting better.

Mother's Day in Poland is always celebrated **on May 26**. MOTHER'S Day is time for sons and daughters to celebrate their mothers.

Mother's Day is a time to thank our Mothers.

Everyone loves their mother. This day we go to mum to say her "I love You", "Thank you for everything you've done for me", "Thank you for just you are". We buy flowers, chocolates, make some presents and small gifts.

When is Mother's Day in the UK and why does the date change?

This year, Mother's Day was celebrated on March 22 in the UK. But why does the date change every year, and what dates do other countries celebrate Mother's Day?

Mothering Sunday in the US is an annual holiday held on the second Sunday in May, so the date slightly varies each year.

In the UK, the date is linked to Easter, which is different each year as it is determined by the lunar calendar.

The UK's Mother's Day always falls on the fourth Sunday during the period of Lent, when people typically give up things like certain foods or bad habits for the days leading up to Easter.

What is Mothering Sunday?

Mothering Sunday is a celebration held to honour mothers .

The day has evolved into an occasion for children to honour and give presents to their hardworking mums.

In the UK, it was originally linked to religion but has since lost a lot of its connections to the church and is mainly a family day.
