

JEZYK ANGIELSKI KL.7

TEMAT: Parts of the body vocabulary. Części ciała.

Hello! How's it going? I hope you're going well.

Today we are going to talk about parts of the body.
How many words do you remember?

Learn these parts of body names to increase your vocabulary words in English. Imagine that you are in an English speaking country and you need to see a doctor, for example. One of the most important things that you will need to talk about will be where on your body the problem is located. For this reason, it is important that you commit to memory, the names of the different body parts in English. This will not only prove useful in a medical situation but also in informal speech as there are many English idioms that refer to body parts and understanding these will help you progress in the language.

Internal Parts of the Body

heart - your heart pumps your blood around your body.

lungs - when you breathe, the air goes into your lungs.

veins - these transport blood through your body. They are like little tubes.

brain - this is your 'thinking machine' inside your head.

throat - food goes down this to get to your stomach.

liver - the organ that cleans your blood.

stomach - your food goes here when you swallow it.

kidneys - the organs that process all your body waste.

skeleton - all of the bones in your body.

ribs - these are the bones that protect the organs in your chest.

bones - your skeleton consists of many bones. There are about 206 in your body.

skin - it covers almost the entire body and helps keep all the organs and muscles in place.
